### Technical specifications

#### BASE AND BACK PANEL

Made with particle board panels in 2 versions:

- E1 class scratch-resistant and anti-reflective melamine on two sides, with 1mm thick ABS perimeter edges;
- micro-structured matt lacquered with polyurethane paints.

The base is 18mm thick while the back panel is 25mm thick and rests on levelling feet. Available in 4 finishes of the melamine and in all finishes of the lacquered collection.

#### TOP AND SIDE PANELS

Made with 18mm thick particle board panels in 3 versions:

- E1 class scratch-resistant and anti-reflective melamine on two sides, with 1mm thick ABS perimeter edges;
- micro-structured matt lacquered with polyurethane paints;
- veneered with Alpi multilaminar wood veneer according to ISO 18775, and painted with non-toxic, anti-reflective transparent acrylic paints. Available in all finishes of the melamine, lacquered and veneered collection.

#### SUPPORT ELEMENTS IN GLASS

Made of clear 10mm tempered glass with an outer polished edge. Attached to the base and back panel with aluminium clamps. The glass elements have a protective clear silicone seal for when it rests on the ground (no regulation).

Available in 3 different hues: clear Extra-Chiaro, clear Grigio Europeo and clear Bronzato.

#### FLOWER BOXES

Made of 18mm wood-particle board in 2 versions:

- class-E1 melamine-faced on either side with a scratchproof antireflective surface with outer edges in 1mm ABS;
- micro-structured matt lacquered with polyurethane paints.

Available in 3 different melamine finishes as well as all the finishes from the lacquered collection. Suitable for containing decorative artificial plants. Real plants can also be used if the metal drip tray is inserted.

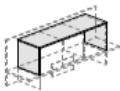

The tray is made from 1mm sheet metal with a epoxy-powder-coating in a black finish. The tray is meant to “catch drops”, but it is not a plant saucer.

This is an optional extra.
