Technical specifications

VERTICAL RING UPRIGHTS

Made from a 50x10mm rectangular-section tubular sheet steel in a pickled epoxy-powder coated finish with a thickness of 1.5mm. Comes provided with a slot-in sheet-metal cover which conceals the elements and the mounting screws, making for a seamless aesthetic without visible joints.

Available in 3 different finishes.

SHELVES

Made with 38mm thick particle board panels in 2 versions:

- E1 class scratch-resistant and anti-reflective melamine on two sides, with 1mm thick ABS perimeter edges;
- micro-structured matt lacquered with polyurethane paints.

Designed with small holes so that the back panels and vertical uprights can be attached to the rear. The bottom shelf has levelling feet which must be adjusted before assembling the uprights and upper shelves.

Available in 3 finishes of the melamine collection and in all finishes of the lacquered collection.

BACK PANELS

Made with 18mm thick particle board panels in 2 versions:

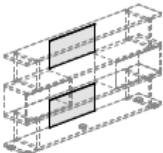

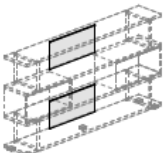

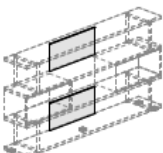

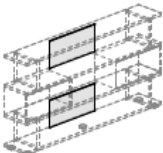

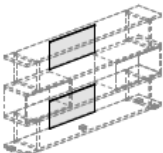

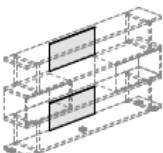

- E1 class scratch-resistant and anti-reflective melamine on two sides, with 1mm thick ABS perimeter edges;
- micro-structured matt lacquered with polyurethane paints;
- veneered with Alpi multilaminar wood veneer according to ISO 18775, and painted with nontoxic, anti-reflective transparent acrylic paints.

Available in all finishes of the melamine, lacquered and veneered collection.
